

Liverpool John Moores University annual statement on research integrity: academic year 2024-2025

Section 1: Key contact information

Question	Response
1A. Name of organisation	Liverpool John Moores University
1B. Type of organisation: higher education institution/industry/independent research performing organisation/other (please state)	Higher Education Institution
1C. Date statement approved by governing body (DD/MM/YY)	Approved the Executive Leadership Team on 24 March 2026
1D. Web address of organisation's research integrity page (if applicable)	https://www.ljmu.ac.uk/research/research-integrity
1E. Named senior member of staff to oversee research integrity	Name: Professor Keith George, Pro-Vice Chancellor (Research and Knowledge Exchange)
	Email address: ResearchIntegrity@LJMU.ac.uk
1F. Named member of staff who will act as a first point of contact for anyone wanting more information on matters of research integrity	Name: Professor Keith George, Pro-Vice Chancellor (Research and Knowledge Exchange)
	Email address: ResearchIntegrity@LJMU.ac.uk

Section 2: Promoting high standards of research integrity and positive research culture. Description of actions and activities undertaken

2A. Description of current systems and culture

Please describe how the organisation maintains high standards of research integrity and promotes positive research culture. It should include information on the support provided to researchers to understand standards, values and behaviours, such as training, support and guidance for researchers at different career stages/ disciplines. You may find it helpful to consider the following broad headings:

- Policies and systems
- Communications and engagement
- Culture, development and leadership
- Monitoring and reporting

2.1. Liverpool John Moores University empowers intellectual curiosity and creativity in all who conduct research under its auspices. As underlined in the [Pro-Vice Chancellor's Statement on Research Integrity](#), we take great pride in a vibrant, empowering culture where staff, students, and collaborators pursue excellent research and knowledge exchange activity while being supported to uphold the highest standards of research ethics and integrity.

2.1.1. This report covers the period 1 September 2024 to 31 August 2025.

2.2. Policies and Systems.

2.2.1. The Pro-Vice Chancellor (Research and Knowledge Exchange) is the University's senior academic lead for research ethics and integrity matters.

2.2.2. The Pro-Vice Chancellor (Research and Knowledge Exchange) chairs the University Research and Knowledge Exchange Committee, which reports to Academic Board. The Committee receives reporting from the University Research Ethics Committee, which is chaired by the Head of Research Ethics and Governance.

2.2.3. The University Research Ethics Committee reviews all eligible research and knowledge exchange projects from staff and postgraduate research students. Undergraduate and taught postgraduate student projects are triaged and reviewed

by School- or Faculty-level local Research Ethics Committees, chaired by senior academic staff within the relevant discipline/s.

2.2.4. The Head of Research Ethics and Governance is responsible for overseeing research ethics and governance resources and processes at the University, covering policy implementation, data systems, and University Research Ethics Committee. They advise the Pro-Vice Chancellor (Research and Knowledge Exchange) on any needs for relevant policy change.

2.2.5. The Head of Research Excellence and Research Strategy is responsible for overseeing research integrity resources and processes at the University, including administering the Liverpool John Moores University Policy for Alleged Misconduct in Research and Knowledge Exchange and the Liverpool John Moores University [Statement on Responsible Research Assessment](#). They advise the Pro-Vice Chancellor (Research and Knowledge Exchange) on any needs for relevant policy change.

2.2.6. The Liverpool John Moores University [Code of Practice for Research and Knowledge Exchange](#) is the overarching policy document establishing strategy and intentions for research ethics and research integrity policies and systems. In line with the Concordat to Support Research Integrity, it provides the clear direction communicated in the specific policies and procedures which ensure research and knowledge exchange occur with consistently high standards of ethics and integrity. These policies and procedures include:

- a) [Liverpool John Moores University Research Ethics and Governance Standard Operating Procedures](#).
- b) [Liverpool John Moores University Research Ethics Decision Tool](#).
- c) [Liverpool John Moores University Statement on Open Research](#).
- d) [Liverpool John Moores University Research and Knowledge Exchange Data Management Policy](#).
- e) [Liverpool John Moores Human Tissue Operations Manual](#).

2.2.7. The [Liverpool John Moores University Research Ethics and Governance Standard Operating Procedures](#) outline how research ethics and integrity decisions are made at the University.

2.2.8. The [Liverpool John Moores University Research Ethics Decision Tool](#) supports staff and students to determine whether their proposed activity will require them to obtain ethical approval.

2.2.9. The [Liverpool John Moores University Statement on Open Research](#) outlines the University's commitment to Open Research. It encourages all University researchers to conduct research in the most open way possible and provides practical support to do so.

2.2.10. The [Liverpool John Moores University Research and Knowledge Exchange Data Management Policy](#) empowers University researchers by defining key terms, procedures, and expectations for Research and Knowledge Exchange Data Management.

2.2.11. The [Liverpool John Moores Human Tissue Operations Manual](#) defines the University's obligations under the Human Tissue Act 2004 and sets out the relevant framework for decision making and tissue storage.

2.2.12. All Liverpool John Moores University policy documents include a title page which defines the entity responsible for policy implementation, the date of approval, the date of next review, and the entity responsible for review.

2.2.13. All proposed research activities involving animals are assessed and then monitored by the Named Animal Welfare and Care Officer. The Named Animal Welfare and Care Officer conducts spot checks to ensure activities are being conducted appropriately. The Named Animal Welfare and Care office is responsible for referring activities to the Liverpool John Moores University Animal Welfare and Ethical Review Board.

2.3. Communications and Engagement.

2.3.1. Liverpool John Moores University emphasises the importance of internal and external communication to ensure research and knowledge exchange activity conducted under the auspices of the University are in accordance with the highest possible standards of research integrity.

2.3.2. The [Liverpool John Moores University Research Integrity website](#) launched in academic year 23-24. It is designed as a first point-of-contact for internal and external audiences regarding research integrity at Liverpool John Moores University. It contains material on the university's research integrity [ambitions](#), [policies and procedures](#), [annual reporting](#), [training resources](#), and routes for [contacting the university on research integrity matters](#).

2.3.3. The [Research and Innovation Services Directorate website](#) contains additional information on good practice and training, available to all staff and

students, assigned to webpages based on relevant service team responsibilities.

The webpages include:

- a) The [Research Ethics and Governance webpage](#) provides details of [research ethics decision making](#) and [standard operating procedures](#), including portals to submit proposals for ethical approval review at [School](#) and [University](#) level. The page also links users to the University's [Researcher Ethics and Governance training course](#).
- b) The [Grants, Policy, and Projects webpage](#) supplies guidance on the University's [Export Control and Sanctions triage](#), and links to the Export Control Checklist, the Online Goods Checker tool, and to the Higher Education Export Control Association's online training module, for which the University has a use licence.
- c) The [Research Excellence team webpage](#) hosts the [Liverpool John Moores University Open Research Statement](#) and [Liverpool John Moores University Statement on Responsible Research Assessment](#).
- d) The [Knowledge Exchange and Commercialisation team webpage](#) sets out University expectations for [Spin-out Best Practice Commitments](#) and [offers sources of support for commercialisation activities](#), including governance training to ensure the highest standard of ethical conduct throughout the innovation journey.

2.3.4. The [Library Services Open Research](#) team website provides Liverpool John Moores University researchers with access to bespoke advice, timetabled training events, and established procedure and principles statements:

- a) [Basic principles of Open Research and best practice guidelines](#).
- b) Guidance on [Open Access publishing principles](#).
- c) Guidance to Key Funder [Open Access policies](#), including eligibility and compliance requirements.
- d) [Institutional Open Access agreements](#), including eligibility criteria and agreement durations.
- e) [Key principles of Research Data Management](#).
- f) [Guidance](#) on preparing and using Research Data Management Plans.
- g) [Guidance](#) on the responsible use of metrics in evaluating research.
- h) Research staff and students can contact the Open Research team for further information: OpenResearch@LJMU.ac.uk.

2.3.5 The Open Research team launched the 'Open Data Week' initiative at the University in academic year 23-24, running it annually. The 24-25 Week supplied training in open data practices to all staff, researchers, and students. Open Data Week is designed to promote interdisciplinary awareness of research integrity practices and acknowledges the varying requirements across disciplines and

promotes best practices in open research. Open Data Week was developed to complement Open Research Week, which runs every February commencing 18-19.

2.3.6. The University has a single point-of-contact inbox for comments, queries and suggestions on research integrity matters: ResearchIntegrity@LJMU.ac.uk, which operates under the purview of the Pro-Vice Chancellor (Research and Knowledge Exchange). This mailbox is presented in the '[Contact Us](#)' section of the University's Research Integrity website.

2.3.7. The University is a subscriber to the United Kingdom Research Integrity Office and a member of the United Kingdom Reproducibility Network. Staff are encouraged to subscribe to both organisations' newsletters and to access the training sessions and workshops made available from our institutional affiliations.

2.4. Culture, Development, and Leadership.

2.4.1. Liverpool John Moores University supports all research staff and students to understand the importance of research integrity to ensure full trust and confidence in the research process. The University provides training and policies founded on the principles of honesty, transparency, accountability, respect, and rigour. All staff and students can access any Liverpool John Moores University policy document through the University's [Policy Centre](#).

2.4.2. All staff and students can access Liverpool John Moores University's research integrity [online training materials](#) and [links to external guidance](#) through the Research Integrity website. The website focuses on asynchronous delivery for audience convenience, including an '[Integrity bitesize](#)' resource to provide quick answers on research integrity and Questionable Research Practices.

2.4.3. The University Open Research team provides training sessions related to research integrity, open research, and research evaluation. All sessions are bookable for staff and (where eligible) students through the central [UniCal platform as a 'one-stop shop'](#). Relevant training courses include cross-disciplinary sessions covering data management planning, storing and sharing research data safety, ethical data sharing, and compliance with research funder and publisher policies.

2.4.4. The Liverpool John Moores University Doctoral Academy provides [policies related to research degrees in a publicly viewable format](#), communicating an introduction to the principles of research integrity for all research students at the

start of their journey and outlining how those principles will shape the doctoral journey.

2.4.5. The [Policy for the Supervision of Research Degrees](#) clarifies that it is the specific responsibility of the lead supervisor to ensure that the PGR is aware of regulations and policies of the university, and of the need to conduct their research according to ethical principles, and of the implications of research misconduct and plagiarism.

2.4.6. Liverpool John Moores University provides specific researcher development training programmes for career profiles with dedicated research integrity and ethics components: the [Doctoral Academy Researcher Development Programme](#) and the [ACTivator Programme](#) for staff early in their research career.

2.4.7. In 24-25, the Vice Chancellor's Awards for Excellence in Research and Knowledge Exchange included the category: Excellence in Open Research. The award category is in its second year. It celebrates individuals or research teams who have demonstrated a commitment to Open Research practices. It rewards and celebrates innovative practices that enhance transparency, inclusivity, collegiality, reproducibility, and efficiency in open research practices.

2.5. Data Management Advocacy.

2.5.1. Liverpool John Moores University is committed to upholding high standards of research integrity in data management by embedding the FAIR (Findable, Accessible, Interoperable, and Reusable) principles into research data management processes.

2.5.2. The Library's Research Data Management Specialist periodically assesses the Liverpool John Moores University Research Data Repository for compliance with these principles, ensuring that all datasets meet the necessary standards for discoverability, accessibility, and long-term usability.

2.5.3. Based on the assessment, the Library's Open Research team has expanded the Repository with new requirements:

- a) All data sets must have a new 'fields of research' field.
- b) the Dublin Core metadata standards must be present as a minimum standard for ensuring findable metadata.

2.5.4. Liverpool John Moores University mandates that all data sets have a persistent identifier. These identifiers, including DOIs, ensure interoperability and ensure transparency and compliance with funder and institutional requirements.

2.5.5. All datasets must be associated with a README file, given in a standard format, which provides access instructions for all Repository users.

2.5.6. To ensure equitable researcher access to FAIR principles support, Liverpool John Moores University uses established pathways for promoting data management best practices through targeted advocacy. The Research Data Management Specialist works with Research Groups, Centres, and Institutes, Faculty committees, and Research Support staff teams to highlight and implement emergent best practice in FAIR principles, Open Access, and responsible data stewardship. All activities are recorded in an annual FAIR data report.

2.6. Monitoring and Reporting.

2.6.1. The Pro-Vice Chancellor (Research and Knowledge Exchange) is responsible for monitoring research integrity at Liverpool John Moores University.

2.6.2. The Pro-Vice Chancellor (Research and Knowledge Exchange) tasks the University Research and Knowledge Exchange Committee to be the forum for periodic review of research integrity policies, processes, and progress at Liverpool John Moores University.

2.6.3. The University Research and Knowledge Exchange Committee can request reporting from its subordinate Committees and Groups, including the Faculty Research and Knowledge Exchange Committees and the University Research Ethics Committee.

2.6.4. The School-level Research Ethics Committees supply annual reporting to the University Research Ethics Committee outlining the number and scope of decisions made and escalated.

2.6.5. The Library reviews the efficacy of research data management training annually. The Research Data Management Specialist monitors and evaluates the effect of Liverpool John Moores University research data management initiatives, combining narrative assessment and training session feedback with quantitative metrics, accessibility rates of open datasets, and repository access and download rates.

2.6.6. The University Research and Knowledge Exchange Committee receives an annual report on anonymised lessons learned from the activities conducted in the delivery of the Liverpool John Moores University Statement on Responsible Research Assessment and the Policy for Alleged Misconduct in Research and Knowledge Exchange. The report is compiled by the Head of Research Excellence and Research Strategy and the Head of Research Ethics. The report does not cover actions under the auspices of the Staff Disciplinary Procedure or the Academic Misconduct Policy.

2B. Changes and developments during the period under review

Please provide an update on any changes made during the period, such as new initiatives, training, developments, also ongoing changes that are still underway. Drawing on Commitment 3 of the Concordat, please note any new or revised policies, practices and procedures to support researchers; training on research ethics and research integrity; training and mentoring opportunities to support the development of researchers' skills throughout their careers.

2.7. Developments in Academic Year 2024-2025 include:

2.7.1. Developments related to policies, principles, and procedures:

(a) Liverpool John Moores University participated in the Research Excellence Framework 2029 People Culture and Environment pilot exercise, with four Units of Assessment and an Institutional submission each mapping 'responsibility' policies, principles, and procedures within their remits. The submissions were made in March 2025 for return in the 2025-2026 academic year.

(b) The University Research and Knowledge Exchange Committee reviewed and updated the Liverpool John Moores University Research and Knowledge Exchange Data Management Policy in May 2025. The Policy will next be reviewed in May 2027. The Policy governs research data storage and publication. It promotes the principles set out in the Concordat on Open Research Data and the UKRI common Principles on Data, and is aligned with FAIR (Findable, Accessible, Interoperable, Reusable) data principles.

(c) The Research Ethics and Governance team has reviewed and updated all Standard Operating Procedures and best practice guidance on the [intranet SharePoint site](#) in an exercise running November 2024 to February 2025.

(d) We have continued the development of the Liverpool John Moores Policy on Generative Artificial Intelligence (Large Language Models) and Research Ethics and Integrity, consulting with academic and professional stakeholder groups.

2.7.2. Developments related to communications and training:

(a) Creation and launch of the website <https://www.ljmu.ac.uk/research/research-integrity> as a one-stop-shop for research integrity advice, positions, and training at LJMU, consolidating support previously spread throughout the university's web estate.

(b) The University became a signatory of the Coalition for Advancing Research Assessment (CoARA) and launched its associated [Action Plan](#) for 2025-2026. To develop a CoARA action plan focused on the University's developmental journey,

staff from Research and Innovation Services and Library Services benchmarked LJMU responsible research assessment provision against sector-leading institutions.

(c) The University relaunched its series of UK Reproducibility Network 'ReproducibiliTea' journal club meetings, based within the School of Psychology and open to all staff and postgraduate research students.

(d) In March 2025, researchers in the School of Biological and Environmental Sciences (BES) and staff in the Library Open Research team collaborated to publish the discipline-specific 'Open Research in BES' guidebook with targeted advice to enhance the transparency and robustness of research findings by encouraging open access publishing, preprints, open peer review, open educational resources, and open research data sharing. The guide is published [online](#).

(e) The Library Open Research team published the 'Liverpool John Moores University Open Research Guide' in May 2025. The guidebook expanded the BES version with University-wide guidance on open access publishing, data sharing, reproducible workflows, and public engagement toward enhancing transparency, collaboration, and research impact. The Guide is available in print and [online](#).

2.7.3. Developments related to practices include:

(a) Design and launch of the Innovation, Development, Evaluation and Acceleration to Scale (I.D.E.A.S.) Programme, which provides institution-wide support for all LJMU staff and postgraduate researchers to develop innovation and commercialisation opportunities. The four-week programme emphasises high standards of ethical conduct and includes learning material on responsible innovation in internal and external product development.

(b) The University conducted the Culture, Employment and Development of Academic Researchers Survey (CEDARS) in July 2025 with targeted questions on research integrity expectations and awareness for permanent staff and fixed-term research staff. The proportion of each group indicating awareness of the Concordat to Support Research Integrity exceeded the University's internal target. A greater proportion of fixed-term researchers reported feeling able to raise concerns about research practice than permanent staff, indicating both progress made and areas for further development.

(c) The University's research animal facilities were audited in October 2024 by the Home Office Animals in Science Regulation Unit. The audit resulted in a satisfactory outcome with no formal advisories.

2C. Reflections on progress and plans for future developments

This should include a reflection on the previous year's activity including a review of progress and impact of initiatives if known relating to activities referenced in the previous year's statement. Note any issues that have hindered progress, e.g. resourcing or other issues.

2.8. Reflections include:

2.8.1. Reflections on progress since 2023-2024:

- (a) We have developed and launched a dedicated website for Research Integrity resources and training at Liverpool John Moores University.
- (b) We are continuing the development of the Liverpool John Moores Policy on Generative Artificial Intelligence (Large Language Models) and Research Ethics and Integrity for subsequent adoption.
- (c) We are developing and will publish a Research Publications Policy focused on supporting research being made openly available, on retaining key rights for both authors and the university and assessing individual research outputs on their intrinsic merit and potential extra-academic impact rather than their venue of publication.
- (d) We have supported the Faculty Research and Knowledge Exchange Committees to begin planning for Faculty-specific research integrity and research data management plans following the 2025 merger of five faculties into two.

2.8.2. Developments planned for reporting in 2025-2026 include:

- (a) Updating the Liverpool John Moores University guidance on Research Centre and Institute formation and reporting to include support for good research integrity practices.
- (b) The University Research and Knowledge Exchange Committee to receive the 2025-2026 annual report on the implementation of the Liverpool John Moores University Responsible Research Assessment Statement.
- (c) Implement the Liverpool John Moores University Action Plan for the Coalition for Advancing Research Assessment 2025-2026.
- (d) Continue development of the Liverpool John Moores Policy on Generative Artificial Intelligence (Large Language Models) and Research Ethics and Integrity for subsequent adoption.
- (e) Reviewing the resources provided through the Liverpool John Moores University research integrity website.
- (f) Reviewing the potential to clarify internal University mechanisms for when and how to engage Data Protection Officers in research design processes.
- (g) The University's two Faculties will each review the provision of expert peer review of proposals for externally funded research, including clarifying pathways and expectations for peer review activities.
- (h) The Pro-Vice Chancellor (Research and Knowledge Exchange) will review ways

how Liverpool John Moores University could benefit from additional staff resource to support research integrity practice and policy development.

(i) Reviewing the Liverpool John Moores University Code of Practice for Research and Knowledge Exchange on its bi-annual review schedule.

Section 3: Addressing research misconduct

3A. Statement on processes that the organisation has in place for dealing with allegations of misconduct

Please provide:

- a brief summary of relevant organisation policies/ processes (e.g. research misconduct procedure, whistle-blowing policy, bullying/harassment policy; appointment of a third party to act as confidential liaison for persons wishing to raise concerns) and brief information on the periodic review of research misconduct processes (e.g. date of last review; any major changes during the period under review; date when processes will next be reviewed).
- information on how the organisation creates and embeds a research environment in which all staff, researchers and students feel comfortable to report instances of misconduct (e.g. code of practice for research, whistle-blowing, research misconduct procedure, informal liaison process, website signposting for reporting systems, training, mentoring, reflection and evaluation of policies, practices and procedures).
- anonymised key lessons learned from any investigations into allegations of misconduct which either identified opportunities for improvements in the organisation's investigation procedure and/or related policies / processes/ culture or which showed that they were working well.

3.1. Summary of relevant policies and processes.

3.1.1. The Liverpool John Moores University Policy for Alleged Misconduct in Research and Knowledge Exchange contains the procedure for addressing allegations of research misconduct. The Policy is derived from the Liverpool John Moores University Code of Practice for Research and Knowledge Exchange. Both documents reflect UKRIO principles and the University's obligations to transparency, timeliness, robustness, and fairness as under Commitment 4 of the Concordat to Support Research Integrity.

3.1.2. The Policy defines misconduct in research and knowledge exchange as fabrication, falsification, plagiarism, or deception in proposing, carrying out or reporting results of research and deliberate, dangerous or negligent deviations from accepted practice in carrying out research or knowledge exchange activity. It includes failure to follow established protocols if this failure results in unreasonable

risk or harm to humans, other vertebrates or the environment, failure to adhere to approved ethical practices where applicable, and facilitating of misconduct in research and knowledge exchange by collusion in, or concealment of, such actions by others. It acknowledges misconduct in research and knowledge exchange will not normally include honest and reasonable error, or honest and reasonable differences of interpretation or judgement in the collection, evaluation or reporting of research results.

3.1.3. The process functions with a three-phase model, where allegations are reviewed and investigated by staff with appropriate job roles and experience and have no associated conflict of interest. In full, the process has a preliminary screening phase, an investigation phase, and an outcome phase. The outcome phase is supplied by transparent policies for taking relevant action where appropriate. The policies are the Staff Disciplinary Procedure for allegations against staff and the Academic Misconduct Policy for Postgraduate Research Students.

3.1.4. As described in the '[Contact Us](#)' section of the Liverpool John Moores University Research Integrity website, staff, students, and external parties seeking advice on the Policy for Alleged Misconduct in Research and Knowledge Exchange can contact the Pro-Vice Chancellor (Research and Knowledge Exchange), Professor Keith George, through the email account ResearchIntegrity@LJMU.ac.uk. Students can also contact the Student Governance team through the email account StudentGovernance@LJMU.ac.uk.

3.1.5. The Policy for Alleged Misconduct in Research and Knowledge Exchange was instituted in 2015. It is reviewed every three years or when there are pertinent changes to legislative frameworks. Its next scheduled review date is September 2026.

3.2. Creating and embedding a research environment in which individuals feel comfortable to report instances of misconduct.

3.2.1. Liverpool John Moores University seeks continuously to enable individuals, including staff students, external stakeholders, and collaborators to be able to report instances of research misconduct. The University has instituted policies to support individuals who may need assistance in a situation of potential misconduct. A-F are held within the University's online [Policy Centre](#), accessible by all staff and students. G is held within the University's Research Ethics and Governance SharePoint [page](#), accessible by all staff and students.

- a) Policy for Alleged Misconduct in Research and Knowledge Exchange
- b) Staff Disciplinary Procedure
- c) Academic Misconduct Policy
- d) Whistleblowing Policy
- e) Dignity at Work Policy
- f) Anti-Bribery and Corruption Policy and Procedures
- g) Liverpool John Moores University Research Ethics and Governance Standard Operating Procedure.

3.2.2. The University's Research Integrity website has a [page](#) hosting publicly viewable copies of relevant policies:

- a) Code of Practice for Research and Knowledge Exchange
- b) Whistleblowing Policy
- c) Policy for Alleged Misconduct in Research and Knowledge Exchange

3.2.3. The University's Research Ethics and Governance Standard Operating Procedure provides contact details for individuals to speak to UKRIO's Advisory Service for independent, expert and confidential advice on understanding and addressing poor practice and misconduct.

3.2.4. The University's Research Ethics and Governance Standard Operating Procedure is linked to staff at the top of the Research Ethics and Governance webpage, in turn linked from the main [Research and Innovation Services](#) [directorate](#) webpage. The University's Policy Centre is linked from the 'Useful Links' section at the top of the University's main [Staff Home](#) page.

3.2.5. The University empowers individuals to report instances of misconduct:

- (a) Individuals who are considering reporting a concern can access confidential professional services advice. This advice is provided by the Head of Research Excellence and Research Strategy and the Head of Research Ethics, who can be contacted through the mailbox ResearchIntegrity@LJMU.ac.uk.
- (b) Faculty Associate Deans – Research and Knowledge Exchange can provide confidential, faculty-specific advice for those considering reporting a concern.
- (c) The Concordat to Support the Career Development of Researchers Steering Group lead a 'Research Staff Association' forum to discuss fixed-term research staff perspectives on improvements to the University research environment, including potential barrier issues related to reporting misconduct.
- (d) Individuals who wish to report an issue with the research environment as it enables them to feel comfortable to report instances of misconduct can do so by

first contacting the Pro-Vice Chancellor for Research and Knowledge Exchange, Professor Keith George, through the mailbox ResearchIntegrity@LJMU.ac.uk.

3.3. Lessons learned.

- 3.3.1 We learn lessons through periodic review of the Policy for Alleged Misconduct in Research and Knowledge Exchange on a three-year cycle and through extraordinary reviews following pertinent changes to legislative frameworks.
- 3.3.2. We have learned the following lessons in the review period, which we will take into the next modification of the Policy for Alleged Misconduct in Research and Knowledge Exchange:
- (a) We have made valuable use of strong relationships between teams whose work covers matters of academic misconduct and matters of misconduct in research and knowledge exchange, including peer-led review of process mechanisms.
 - (b) The University Research and Knowledge Exchange Committee will review and propose any extraordinary changes to be made to the Policy for Alleged Misconduct in Research and Knowledge Exchange for implementation before the next UKRIO Research Integrity reporting window.

3B. Information on investigations of research misconduct that have been undertaken

Please complete the table on the number of **formal investigations completed during the period under review** (including investigations which completed during this period but started in a previous academic year). Information from ongoing investigations should not be submitted.

An organisation’s procedure may include an initial, preliminary, or screening stage to determine whether a formal investigation needs to be completed. These allegations should be included in the first column but only those that proceeded past this stage, to formal investigations, should be included in the second column.

Type of allegation	Number of allegations			
	Number of allegations reported to the organisation	Number of formal investigations	Number upheld in part after formal investigation	Number upheld in full after formal investigation

Fabrication	0	0	0	0
Falsification	0	0	0	0
Plagiarism	1	1	0	1
Failure to meet legal, ethical and professional obligations	0	0	0	0
Misrepresentation (eg data; involvement; interests; qualification; and/or publication history)	1	1	0	0
Improper dealing with allegations of misconduct	0	0	0	0
Multiple areas of concern (when received in a single allegation)	0	0	0	0
Other*	0	0	0	0
Total:	2	2	0	1
*If you listed any allegations under the 'Other' category, please give a brief, high-level summary of their type here. Do not give any identifying or confidential information when responding.				
<i>[Please insert response if applicable]</i>
